## EXPERIENCE

### Senior Software Engineer Frontend

#### Zopper

10/2022 - Present Noida, India

- Led and mentored a team of four, achieving a remarkable number of successful deliveries.
- Developed a highly configurable product with dynamic form rendering, customizable validations, custom theming and UI and real-time microservice integration tailored to each business, insurer, and product, enabling configuration for up to 27 products.
- Developed PWAs and service workers for offline caching and push notifications.
- Engineered a high-performance policy sales platform, live with 12+ plans from various insurers, generating monthly sales exceeding 2 crore, fueling revenue growth and market expansion.

### Associate Software Engineer

#### Successive Digital

10/2020 - 09/2022 Noida, India

- Crafted a lightweight, full-stack product with advanced data handling and real-time subscription via GraphQL.

## EDUCATION

### Bachelor of Technology

#### Galgotias University

08/2016 - 06/2020 Noida, India

GPA

7.29 / 10

### Intermediate

#### Fatherson Public School

05/2015 - 04/2016 Chandpur, India

GPA

7.26 / 10

### Highschool

#### Fatherson Public School

05/2013 - 04/2014 Chandpur, India

GPA

9.6 / 10

## SKILLS

### Software Engineering Leadership

HTML | CSS | Javascript | Typescript

React js | Redux Tool Kit | Next js | Apollo Client

Graphql | Apollo Server | Node js | Express | Mongo DB

Github | Bitbucket | Jira | Click up Swagger-API-Documentation

## ACHIEVEMENTS

- Received a reward and recognition for Blitzkrieg Frontend Pioneer at Zopper in march 2024.
- Got Reward and Recognition for a great beginning at work.
- Winner at Product Launch event at Galgotias University.

## PROJECTS

### Market Cube

A microservice app for managing products, orders, and vendors across Shopify, WooCommerce, and BigCommerce for admin use.

MongoDB, Express, React js, Node-js, GraphQL, Shopify/polaris-components

### Dentsu

A full-stack web app for searching, monitoring, and managing people within Dentsu. Users can view profiles, skills, experience, certifications, create and search gigs, and find internal opportunities.

MongoDB, Express, React js, Node-js, GraphQL

### Airtel Payments Bank - POSP Onboarding

A web-view app for Airtel Thanks, enabling users to become insurance agents. Users upload docs for approval, undergo video training, take an exam, and upon passing and Quality Check of documents receive the POSP Certificate.

React js, Node-js, Axios, Material-UI, React Youtube

### Prime

Developed a comprehensive application for agents facilitating seamless onboarding and policy sales. Key features include real-time document verification using OCR technology, dynamic form rendering, and a lead management system to track and resume sales journeys. The app also incorporates a video call and chat room for pre-login verification of sold policies, ensuring secure interactions.

React js, Node-js, Axios, Redux js, Redux Tool Kit, Chakra UI

### Insurance Management System

A role-based platform for enrolling and administering group insurance products, with functionalities for initiating claims and endorsements for all sold group insurance products.

React js, Node-js, Redux, Redux Tool Kit, Vite, Chakra UI

### Bimavahak & Bimavistar

A PWA provided to IRDAI powered by Zopper, incorporating Bimavahak onboarding functionality, and focused on selling insurance products tailored for rural areas in India. The PWA also features training and examination modules, with certificates issued upon completion, and an e-sign feature for secure transactions.

React js, Redux js, Redux Tool Kit, Chakra UI, i18n, l10n

### Other Projects

- BOB - Recon
- ZIBPL POSP Onboarding
- Airtel Payments Bank Motor
