MUDIT RAJPUT

Senior Software Engineer

+91-9997467893 | muditrajput1@gmail.com | linkedin.com/in/mudit-rajput-0974a8198

PROFESSIONAL SUMMARY

Software engineer with 6 years of experience, mostly on the frontend with React and TypeScript, along with full-stack work in Node.js, GraphQL and Django. At Zopper I led a team of four and built insurance sales platforms that went live with 12+ plans.

EXPERIENCE

Software Development Engineer - L4

CRIB | 06/2025 - Present

- Working on the React frontend of CRIB's property management platform, inside a monorepo.
- Built a PDF service in Django for generating documents and invoices.
- Use Claude Code and Cursor in daily frontend and backend work.

Senior Software Engineer Frontend

Zopper | 10/2022 - 05/2025 | Noida, India

- Led and mentored a team of four, with many successful deliveries.
- Developed a highly configurable product with dynamic form rendering, custom validations, theming and real-time microservice integration for each business, insurer and product. Used for up to 27 products.
- Developed PWAs and service workers for offline caching and push notifications.
- Engineered a high-performance policy sales platform, live with 12+ plans from various insurers and generating monthly sales of over 2 crore.

Associate Software Engineer

Successive Digital | 10/2020 - 09/2022 | Noida, India

- Built a lightweight full-stack product with advanced data handling and real-time subscriptions via GraphQL.

EDUCATION

Bachelor of Technology, Galgotias University

08/2016 - 06/2020 | Noida, India | CGPA 7.29/10

Intermediate, Fatherson Public School

05/2015 - 04/2016 | Chandpur, India | GPA 7.26/10

High School, Fatherson Public School

05/2013 - 04/2014 | Chandpur, India | CGPA 9.6/10

SKILLS

Software Engineering Leadership
HTML | CSS | JavaScript | TypeScript | Python
React.js | Redux Toolkit | Next.js | Apollo Client
GraphQL | Apollo Server | Node.js | Express
Django | MongoDB | Monorepo
GitHub | Bitbucket | Jira | ClickUp | Swagger
Claude Code | Cursor | AI-assisted development

ACHIEVEMENTS

- Blitzkrieg Frontend Pioneer award at Zopper, March 2024.
- Got Reward and Recognition for a great beginning at work.
- Winner at the Product Launch event at Galgotias University.

PROJECTS

CRIB

A property management platform for PGs, hostels and co-living spaces. Covers tenant onboarding with e-KYC and digital rent agreements, rent collection and reminders, occupancy tracking, complaints and income reports. Working on the React frontend, maintained in a monorepo.

React.js, Monorepo

PDF Service

A Django service that generates PDFs and invoices for the CRIB platform.

Python, Django

Prime

An app for agents to onboard and sell policies. Has real-time document verification using OCR, dynamic form rendering and a lead management system to track and resume sales journeys, plus a video call and chat room for pre-login verification of sold policies.

React.js, Node.js, Axios, Redux Toolkit, Chakra UI

Bimavahak & Bimavistar

A PWA provided to IRDAI, powered by Zopper, for Bimavahak onboarding and selling insurance products made for rural India. Includes training and exam modules, certificates on completion and e-sign.

React.js, Redux Toolkit, Chakra UI, i18n, l10n

Insurance Management System

A role-based platform for enrolling and managing group insurance products, with claims and endorsements for all sold group policies.

React.js, Node.js, Redux Toolkit, Vite, Chakra UI

Market Cube

A microservice app for managing products, orders and vendors across Shopify, WooCommerce and BigCommerce.

MongoDB, Express, React.js, Node.js, GraphQL, Shopify Polaris

Dentsu

A full-stack app for searching and managing people within Dentsu, with profiles, skills, certifications, gigs and internal opportunities.

MongoDB, Express, React.js, Node.js, GraphQL

Other Projects

Airtel Payments Bank POSP Onboarding, Airtel Payments Bank Motor, BOB Recon, ZIBPL POSP Onboarding
